

Simply Efficient

Saving time and resources is a big concern for most businesses.

Transforming your workflow, DMC Canotec can help you to be more productive.

Streamlined document capture

Doubled-sided scanning delivers high-quality results fast.

Standard software support is provided for converting documents to searchable PDFs, Microsoft Word documents and PowerPoint files.

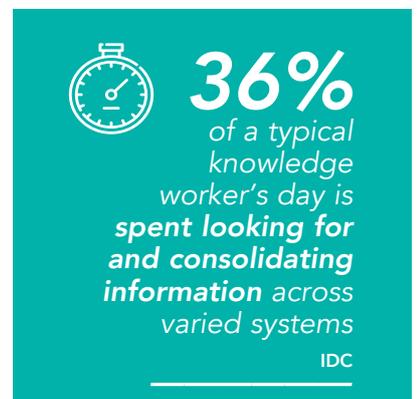

Simple Document Scanning

With uniFLOW Online Express users can scan documents directly from any connected Canon imageRUNNER ADVANCE. The lean and intuitive user interface plus the secure 'Scan to Myself' and 'Scan to Google Drive' workflows help to bring about immediate gains in productivity.

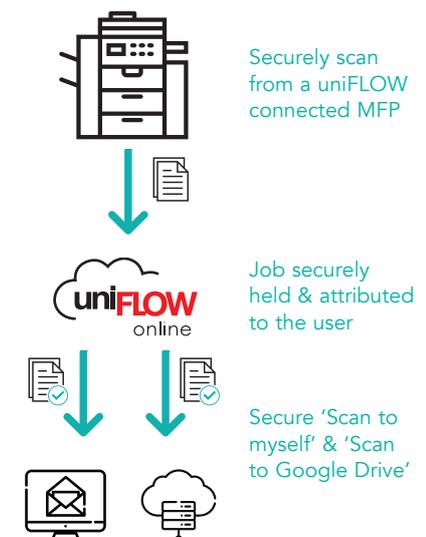

Built-in intelligence

Monitor sensor technology intuitively wakes the device from 'sleep mode' to reduce wait times.

Smart media handling capabilities, including 'skip blank pages' and multi-sheet feed detection, help to ensure error-free scanning.

Mobile Workflow

The imageRUNER ADVANCED platform is efficient by design

Fully integrated, secure end-to-end workflow software solutions enable quick and efficient document capture, archiving and sharing.

Reducing your reliance on paper-based processes facilitates collaboration and controls costs.

Supported by a common driver, intuitive interfaces and assistance videos provide greater ease of use

Easily and securely send digital output documents to a multitude of destinations for sharing, archiving, or printing

Device functions and settings can be customised & permit monitoring of individual user output

Flexible finishing options, such as stapling and booklet production, enable you to produce high-quality documents in-house

Supporting your business through change

Effortlessly streamline your information workflows with an unrivalled portfolio of high quality server-less imaging solutions for the management of digital and physical documents – throughout their life-cycle.

About DMC Canotec

Committed to helping businesses work smarter, we are a UK provider of innovative MPS solutions, empowering clients by simplifying the document journey.
