

# Simply Secure

With confidential data regularly moving between a user's desktop, mobile device and MFP, it is important to take measures to help protect your print environment.

Using Canon's imageRUNNER ADVANCE platform, DMC Canotec can help to ensure that your information remains secure.

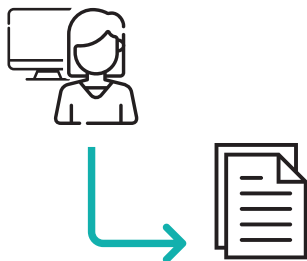

Multi-layered security solutions safeguard sensitive information before, after and during transmission.

## Prevent unauthorised use of the device

With Universal Login Manager, the device can be configured to require picture log-in, PIN code or card access, ensuring that sensitive documents won't print without permission.

Usage can also be tracked by individual or department.

## Secure printing with My Print Anywhere

Submit a print job

System secures the print job

## The imageRUNER ADVANCED platform is secure by design

Protecting your confidential information is a priority. Integrating a range of hardware and software capabilities, this intelligent platform protects sensitive data whilst assuring its accessibility.

UniFlow Online Express allows you to monitor & control device access

IPsec authenticates and encrypts your data during transmission

HDD Erase removes latent images after each task, while HDD Format removes & overwrites all data following device decommissioning

HDD Encryption protects data following hard drive removal

## Supporting your business through change

ImageRUNNER ADVANCE portfolio can be easily customised to meet the needs of your business, now and in the future; this best in class platform integrates seamlessly with a range of powerful document capture and output management solutions, including uniFLOW, eCopy, Therefore and IRS.
